

Proposed Complete Streets Improvements
Supreme Community - Assumption Parish, Louisiana

April 2023

Description of Proposed Facility Types and Provision of Transportation for Non-Drivers

The proposed sidewalks, crosswalks, signals, paved shoulders, and off-street pathways provide a means for non-drivers to access community destinations, including a church, park, and commercial destinations. . The proposed visibility improvements would help drivers see oncoming traffic, both vehicular and non-motorized, increasing safety for both drivers and non-drivers.
